GEWA

K E Y S

GEWA Digital Pianos - MADE IN GERMANY.

Our aim is to transform the authentic features of a classical piano into GEWA pianos by means of specially developed digital technology. Saxony's unique location, which combines classical musical instrument manufacturing and Europe's „Number One Cluster for Microelectronics“ - Silicon Saxony - are the basis for this.

In addition, we are looking for cooperation with other European development and supplier companies, which help to fulfill our wishes.

Silicon Saxony“ offers technology partners in the field of electronics and hardware manufacturing, which allow us to develop individual components tailored to the needs of our instruments. In addition, manufacturing processes are based on the highest possible industrial standards, thus ensuring a very high degree of reliability.

We also take our cue from the classical piano when it comes to the keyboard, which is so important for digital pianos. We developed a keyboard with three contact points in order to come as close as possible to the high demands of a classical pianist. That is why it bears the name „Concert Pianist“. The sound defines, first and foremost, the quality of a high-quality musical instrument. In a carefully prepared and elaborate sampling process in Hamburg, we recorded the legendary sound of the „Steinway Concert Grand Piano D 274“ and other instruments in high-resolution audio quality, with the active support of tuning masters from Steinway, and digitally processed it in our unique memory; several gigabytes of memory. State-of-the-art digital amplifiers with speaker systems specially developed for our digital pianos reproduce the sound authentically and in great detail.

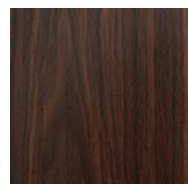

All sounds can be processed with two independent internal effects. From recording function, metronome and Bluetooth to sophisticated individualization of the keystroke, GEWA digital pianos offer comprehensive comfort and almost limitless customization options for your very personal musical development. Tradition and innovation with state-of-the-art technology.

GEWA Digital piano DP 300 G

- **Made in Germany**
- **Piano samples** based on a Steinway D274 grand piano with more than 1 GB of memory
- New **USER CALIBRATION TOOL** for **fine-tuning keyboard behaviour**
- Grand Touch keyboard, **88 weighted hammer keys**
- Sound generation based on the **newest DSP** and **memory technology**
- **Library** with 15 high resolution sounds
- **256 voice polyphony**
- Effects in 2 independent blocks
- **4 reverb effects, 8 modulation effects**
- **Class D amplifier with customised speaker system**
- Connections: DIN MIDI in/out, AUX in/out
- 2 headphone connections
- USB to Host
- Recording function
- Metronome
- Layer possibility
- Traditional cabinet design
- Keyboard lid
- 3 pedals
- Dimensions L x W x H in mm: 1350 x 429 x 800 (968)
- Weight : 43.5 kg

GEWA Digital piano DP 345

- **Made in Germany**
- **High-resolution piano samples of a Steinway D274 grand piano** with more than 1GB memory
- **Concert Pianist keyboard, 88-key hammer action, weighted in zones, with Ivory Touch surface**
- Smart operation via **GEWA Piano Remote App (Android / iOS)**
- Completely revised, **modern control unit** with elegant **OLED Display** and **illuminated soft-touch buttons**
- Sound Library with 15 high resolution sounds
- Sound generation based on the latest DSP and memory technology
- **Bluetooth Audio + MIDI Function**
- **Recording of MIDI- or .WAV Files via USB**
- **Split/Layer function with up to 3 Sounds**
- **User Calibration Tool** for fine-tuning the keyboard response
- **Virtual piano technician** to adjust string resonance, pedal resonance, hammerhead, half pedal, Una Corda, attack and tuning parameters
- **Lesson-Function** with constantly growing library of practice pieces
- **Metronome with click and pre-selectable rhythms**
- **Effects in two independent effect blocks**
- 5 reverb effects, 5 modulation effects
- **256 polyphonic voices**
- Connections
 - DIN MIDI in/out
 - Line in (3.5mm Stereo jack)
 - Line Out L/R (6.3mm Mono jack)
 - 2 headphone connections
 - USB to Host / to Device
- Sustain Pedal
- Traditional cabinet design with **acoustic bar for a realistic sound**
- Keyboard cover
- 3 Pedals
- Dimensions L x D x H in mm: 1350 x 410 x 1180 (1360)
- Weight: 41.5kg

GEWA Digital piano UP 365

- **Made in Germany**
- **NEW Concert Pianist II** keyboard, in weighted zones with Ivory Touch, wooden elements and pressure point simulation
- High resolution „Hamburg Grand“ **piano sample based on Steinway D274** with far more than 1 GB memory
- **VISATON speaker system** (2x 25W RMS - Full-Range)
- **BLUETOOTH Audio + Midi**
- **USER CALIBRATION TOOL** for fine-tuning keyboard behaviour
- **Multi-Language UI** available in English, German, French, Italian, Dutch, Spanish
- String resonance simulation
- **USB-Recording WAV + Midi**
- Sound generation based on the latest DSP and memory technology
- Library with more than 30 sounds and 128 additional GM sounds
- **256-voice polyphonic**
- 16 storable sound settings
- **Editable effects** in 2 independent effect blocks
- **5 reverb effects, 5 modulation effects**
- Metronome with click and pre-selectable rhythms
- LCD matrix display with 128 x 64 dots
- 2 channel recording function
- 4-hand mode
- Split / layer possibility
- Learning function for beginners
- Playback of MP3 files possible via USB stick
- Class D amplifier with adapted loudspeaker system
- Connections: MIDI in/out, AUX in/out
- 2 headphone connections
- USB to host / USB to device
- Traditional cabinet design
- Keyboard cover
- 3 Pedals
- Dimensions L x D x H in mm: 1434 x 420 x 865 (1025)
- Weight: 55 kg

GEWA Digital piano UP 400

- **Made in Germany**
- Optimised for digital sound generation, **piano samples based on a Steinway D274** with more than 1 GB of memory
- Newly developed **Touchscreen Display** with intuitive user guidance
- New **USER CALIBRATION TOOL** for **fine-tuning keyboard behaviour**
- **Graded hammer wooden „Concert Pianist“ keyboard**, 88 keys, in weighted zones with **Ivory Touch surface**
- Sound generation based on the **newest DSP and memory technology**
- Customised **3-way speaker system**
- **Library** with more than 30 sounds and 128 additional GM sounds
- **256 polyphonic voices**
- Key-Off Samples
- Simulation of string resonances
- Sound settings / Combinations freely savable
- **Editable effects** in 2 independant effect blocks
- **5 reverb effects, 5 modulation effects**
- Metronome with click and pre-selectable rhythms
- Recording function
- 4 hand mode
- Split / Layer options
- Learning function for beginners
- Easy Mode for simple use
- **MP3 playback via USB stick**
- **BLUETOOTH** audio unit
- **Class D amplifier** with modified speaker system
- Connections: DIN MIDI in/out, AUX in/out
- 2 headphone connections
- USB to host / USB to device
- Classical casing design without intrusive controls
- Keyboard lid
- 3 pedals
- Dimensions L x W x H in mm: 1466 x 450 x 953 (1113)
- Weight: 70 kg

Custom Shop

We offer tailor-made bags and case covers by draft, instrument or case within the technical scope. Therefore, we require the draft on a scale of 1:1.

Prices:

Please get in touch with your contact at GEWA.

Warranty:

Warranty can only come into effect, when the requirements stated below are fulfilled. We reserve the right to refuse custom-made orders.

Delivery time:

ca. 3 months

Item numbers

Group 200.000 usw.

Old bags or covers for cases cannot be used as a draft.

We require the following information for:

String and fretted string instruments

Abstract of the instrument (top view and side view see fig. 1a, 1b) or instrument.

Brass instruments

Total length of instrument measured (fig. 3a), bell diameter (fig. 3b), circumference at widest position (fig. 3c) or instrument.

Drum covers

Diameter and height including screws.

Keyboard bags and amplifier covers

Length, width and height. When deviation from standard shape, the transmittance of the device is necessary.

Piano covers

Measurements according to fig. 4a-e required. Please indicate, if with closed back plane or with opening at the back. Front opening with zipper possible. Abstract of side view necessary.

Covers for grand piano

Abstract of top without keys and abstract of the side of the keys as well as indication of the brand required.

Covers for cases

Old case covers cannot be used as a draft.

GEWA cases are standardised. Indication of item number will suffice (does not apply for cases older than 10 years and custom-made cases)

For all other case covers we require an abstract of the shape of the case, indication of handle position, height of side, total height of the case (see fig. 5a-c).

Please pay attention: screw-attached covers can only be manufactured based on the case.

To send us the case itself is always required for extraordinary shapes and for cases with screw-attached covers.

PUTTING A CUSTOMER'S LOGO ON THE BAGS - OEM

Example

Prerequisites for orders with stitched Logo (Minimum order quantity 35 Pcs, OEM) :

The customer needs to provide the layout of the Logo as well as indicate colour and size of the Logo. Production will first make a sample which will be send to the customer. The final order will only be given after the customer sent a written confirmation of the logo.

Example

Prerequisites for orders with printed logo (Minimum order quantity 25 pcs):

include either Repro-proof copy (Format min. as large as desired logo should be, Maximum DIN A4. Business card or the like is not sufficient), or CD with logo as TIFF, JPG or EPS in resolution min. 1200 dpi.

For further information, please get in touch with your GEWA contact
